35 Vikas Vihar, Phase-1, Ferozepur City (152002), Punjab, India

PERSONAL PROFILE

I am a high school student from India and a self-taught programmer. I aspire to go abroad for my bachelors. I want to turn the quarantine situations to my advantage and have an experience in the development of real-world programs. I am always eager to learn and implement new stuff into development. I want to have a hands-on experience in my field before I start my bachelors. All my learning through this internship will be highly valuable and will help me a lot in various assignments and projects in future.

AREAS OF EXPERTISE
